(Soft Touch - Press button halfway with no click to switch between modes).

- Flashlight: 250 Lumens - 2 Hours / 230 Meters
- Worklight: 190 Lumens - 3.5 Hours / 18.5 Meters

*COB (Chips on Board)

An innovation in LED technology, COB features smaller, easier clustered LED chips that are mounted directly to the circuit board. These LED chips work together as one lighting module. Because of the compact design, COB outperforms traditional lighting by up to 50 times the light output per centimeter of light surface.
